Contributions to the Plan(s) are deductible from Colorado State income tax in the tax year of the contribution, up to your Colorado taxable income for that year. Such deductions are subject to recapture in subsequent years in which non-qualified withdrawals are made.

Contributions between \$14,000 and \$70,000 made in one year can be prorated over a five-year period without incurring federal gift taxes or reducing your unified estate and gift tax credit. If the account owner dies before the end of the five-year period, a prorated portion of the contribution will be included in his or her taxable estate. If you contribute less than the \$70,000 maximum, additional contributions can be made without incurring federal gift taxes, up to a prorated level of \$14,000 per year. Federal gift taxation may result if a contribution exceeds the available annual gift tax exclusion amount remaining for a given student in the year of contribution.
